

**Get the right
training for
all the right
reasons**

Does your staff have appropriate skills and knowledge in food safety and food hygiene?

Customers expect the highest standards in food handling and expect food handlers to be well trained.

Anyone handling, preparing or serving food to the public should attend this course.

- Restaurants, cafés
- Hospitals
- Nursing homes
- Schools
- Child care centers
- Public Accommodations serving continental breakfast
- Etc.

ServSafe training is the one commitment to food safety implementation that we should all share every day.

Food Safety Training for the Food Establishment Employee

The Gallatin City-County Health Department is pleased to offer you a food safety training opportunity. The training is approved by the National Restaurant Association and ServSafe.

The primary focus of the training program is to educate you, the food service employee on the basics of food.

Food Safety

- What is a foodborne illness
- How foods become unsafe

Ensure Proper Personal Hygiene

- How food can become contaminated
- When to wash your hands
- How to use gloves properly

Purchasing, Receiving, and Storing

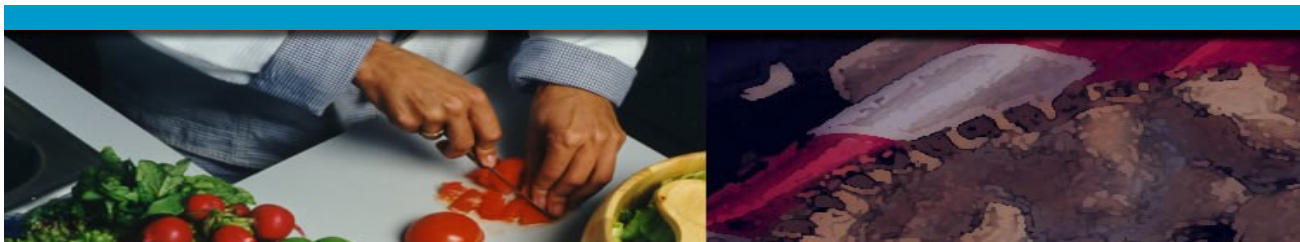

- When to accept or reject a delivery
- How to calibrate and use a thermometer
- How to properly store food

Preparing, Cooking and Serving

- The 4 methods for thawing food
- The minimum internal cooking temperature for foods
- The proper temperatures for hot and cold holding
- The proper way to serve, cool and reheat food

Cleaning and Sanitizing

- The difference between cleaning and sanitizing
- How to make sure that sanitizers are effective
- Clean and sanitize in a 3-compartment sink
- How to store cleaning supplies
